

# Repartee Unified Messaging System

ACTIVE VOICE®

## Auto-Attendant, Voice Mail & Unified Messaging Made Easy

Repartee offers advanced unified messaging, voice mail and automated attendant functionality, helping your organization become more responsive. Designed to work with the applications you use every day; Repartee integrates with Microsoft Outlook, NovellGroupWise, Lotus Notes and IMAP/SMTP E-Mail Accounts as well as leading smart phones such as Blackberry and iPhone. Web access and administration are standard features, in addition to full featured auto-attendant and voice processing. Repartee provides you with the most complete unified messaging solution available.

## The Freedom of a Single Mailbox

Imagine having instant access to every voice, fax and e-mail message you receive no matter where you are. Imagine being able to manage and respond to messages by using simple voice commands or a click of the mouse. Imagine printing directly to a fax machine or handling live incoming calls from a PC without even picking up a phone. Imagine a world in which you never miss opportunities because you can now respond faster to your customers' requests. That's the power of Active Voice's Repartee Unified Messaging System.

## Redefining Unified Messaging

Advanced notification features alert employees to messages that matter most. The mobile workforce will find it as easy to communicate on the road as in the office. As a result, there will be an increase in productivity, acceleration in response times and improved customer service as employees stay connected.

Key features included in Repartee are:

- Accessibility to voicemail via RSS Feeds
- ActiveSuite Client Applications
- Smartphone PDA support

Repartee is a PC-based Unified Messaging software appliance that is built upon the proven Repartee software code and the Linux operating system, offering scalability, functionality and sustainability.

NEC Infrontia Inc. is a leading manufacturer of communication hardware and software. Our products empower people & business to communicate around the globe.
